THE COMPLETE INTEGRALLY BUNDED OIL STORAGE SYSTEM
CAPACITIES FROM 1000 - 9000 LITRES

BUILT ON LEADERSHIP

Energy Storage Solutions

Kingspan Titan is an Energy Storage solutions provider whose mission is to preserve and protect the environment by providing safe and absolute containment of expensive and harmful liquids.

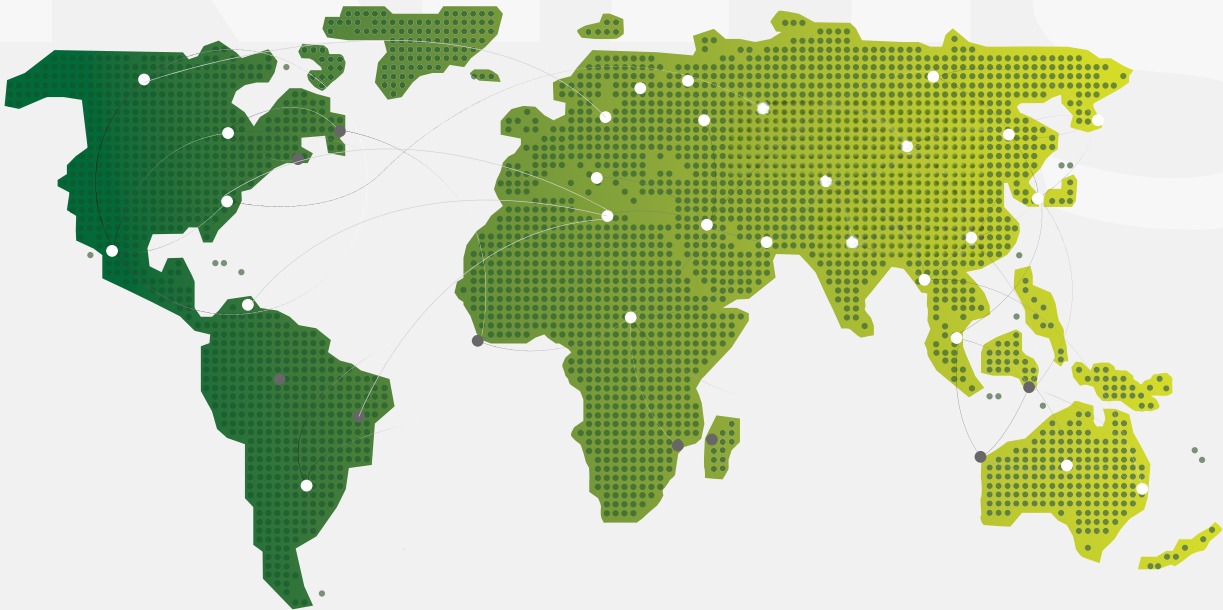

Operating in over 85 countries, we offer a global distribution network of experienced sales and technical teams who provide a full range of focused customer service- including delivery scheduling, consultancy and installation guidance. Kingspan Titan gives you the confidence of support over the lifetime of your product and beyond.

More than that, we power businesses and lives through total peace of mind.

Kingspan Titan

For over 40 years, Kingspan Titan has designed and manufactured innovative ways to store, dispense and protect Adblue, diesel and oil. We pioneered the world's first environmentally responsible bunded tank - leading change in our sector and setting industry standards around the world.

As established global market leaders, our diverse range of innovative and environmentally responsible steel and plastic storage solutions offer dispensing and management systems in capacities ranging from 200 - 100,000 litres - ideal for a wide variety of industrial, agricultural, road haulage, mining, manufacturing and construction applications.

EcoSafe®

Kingspan Titan EcoSafe

The Kingspan Titan EcoSafe range of bunded oil storage tanks have long been the brand of choice for domestic, commercial and agricultural heating requirements. They are available in 15 capacities from 1000 - 9000 litres, offering various shapes to suit all installation requirements.

The EcoSafe bunded oil storage tanks eliminate the risk of leaks and ground contamination thanks to the double skin construction. All EcoSafe tanks come as standard with the WatchmanAlarm oil level monitor which reduces the possibility of running out of fuel and deterring theft whilst also giving you security and peace of mind.

Do you require a bunded oil tank?

A pollution risk assessment should be carried out by a suitably qualified person .i.e OFTEC registered technician, or Kingspan Titan recommended Installer to determine if your tank requires bunding.

Please call **028 3836 4444** or titan@kingspan.com to find your local Titan Recommended Installer or OFTEC registered technician today!

RELIABILITY

- › Known for excellent service, quality products and trustworthy guarantees combined with over 40 years experience you know you can trust Kingspan Titan.

TOTAL PEACE OF MIND WITH ECOSAFE BUNDED OIL STORAGE SOLUTIONS

3 EASY STEPS TO THE PERFECT OIL STORAGE SOLUTION

STEP 1
Contact us and we'll arrange for a local Kingspan Titan Recommended Installer to visit your premises and carry out a free on-site survey should it be required.

STEP 2
Our dedicated team will work with you to help you choose the correct model for your installation.

STEP 3
We can offer tailored service and maintenance packages for your EcoSafe oil storage tank

ULTIMATE RELIABILITY

The Double skin construction and WatchmanAlarm Oil Level Monitor keeps users informed of fuel levels and protects against leaks and ground contamination. All EcoSafe tanks are CE marked and OFTEC approved giving you total peace of mind.

THE BENEFITS

The Kingspan Titan EcoSafe range is built on a wealth of industry experience and knowledge allowing us to bring to market one of the most reliable and robust oil storage solutions. The EcoSafe range also offers:

SLIMLINE MODELS

The slimline bunded EcoSafe oil storage tank is the perfect solution for locations with limited space and access restrictions. The slimline models have a smaller footprint than standard oil tanks making it much easier to manoeuvre and fit into tight spaces. Available in capacities 1000, 1400, 2000 and 4000 litres.

DOUBLE SKIN COMPLIANCE

EcoSafe tanks come double skinned for environmental protection and to safeguard against leaks and ground contamination. Our tanks comply with all national oil storage regulations*.

SECURITY

All EcoSafe tanks come as standard with the WatchMan Alarm oil level monitor which reduces the possibility of running out of fuel giving you the security and peace of mind you require.

KINGSPAN TITAN
BUILT ON EXCELLENCE

FEATURES

- Low maintenance - no rust and no painting.
- SpillStop overfill prevention device fitted as standard. This device shuts off the point once fuel reaches 95% of the tank volume.
- WatchmanAlarm ultrasonic oil level monitor and alarm transmits the level of oil remaining in the primary tank to a receiver in your home. The receiver will release an audible alarm when there is a dramatic drop in the level of oil.
- EcoSafe tanks are made from recyclable polyethylene.
- Top outlet options on the tanks can further reduce the risk of spillage.
- EcoSafe tanks are fitted with a bottom outlet as standard and the contents of the tank pack come with a unique gate valve and filter supplied as standard.
- Bunded area holds 110% of the inner capacity.

* **England and Wales** - The Control of Pollution (Oil Storage) Regulations 2001.
Scotland - The Water Environment (Oil Storage Scotland) Regulations 2006.
Northern Ireland - The Building (Amendment) Regulations (Northern Ireland) 2006.
